Please write your text in English (American or British usage is accepted, but not a mixture of these). Authors who feel their English language manuscript may require editing to eliminate possible grammatical or spelling errors and to conform to correct scientific English may wish to use a Language Editing service. Please see the links below for Language Editing Services.

* We are an inclusive journal, and we ask that all submissions be in line with our inclusive language policy. When preparing your manuscript for submission, take a mindful approach towards personal biases and a concerted effort to limit their influence. Authors should remove any suggestion or implication of superiority or inferiority of one person over another based on age, gender, race, ethnicity, culture, sexual orientation, disability, religion, or socio-economic class. We ask authors to use inclusive language practices and awareness of diversity, equity, and inclusion in their research and keep it at the forefront during the composition of their findings.

6. Declarations and Ethical Compliance

All submissions must comply with the IDPJ Ethical Authorship Guidelines. Authors must include the following declarations in their submission:
